**WARNING:** Some parts are assembled using magnets. These magnets can cause serious injury if they are swallowed. Keep away from children. If you suspect a magnet has been swallowed, seek medical help straight away.

Some parts may have sharp edges, please handle them with care.

The installation of electronic parts must always be carried out by an adult. When replacing batteries, use the same type of batteries.

Please ensure that the battery compartment is securely fastened before you use the model.

Used batteries should be recycled.

Please make sure to check with your local council how batteries should be disposed of in your area. Batteries can present a choking danger to small children and may cause serious harm if ingested. Do not leave them lying around and keep any spare batteries locked away at all times.

29-3 (B1)

29-2

Take the Outer Skin **29-2** and test-fit the Pipe B1 **29-3** into the slots, as shown. There is also a peg at one end which fits into a corresponding hole. When sure of a good fit, glue firmly in place. Remember to remove the label on the pipe before fitting.

3

29-4 (B2)

29-3

29-2

Test fit the tabs on Pipe B2 **29-4** in the slots on Skin **29-2**, which continue along from pipe **29-3**. Again, there is a peg at one end which fits into a corresponding hole. After checking the fit, glue firmly in place.

## KIT 29: THE RIGHT RIBS AND THE RIGHT THIGH (I)

Study the diagram carefully and note the position of the four Magnets **29-5**. Glue the Magnets **29-5** into the circular recesses on the inside of the Outer Skin **29-2**. It doesn't matter which way round the magnets are fitted.
